

# Creating your own graphical body wrap for the EZ-Kiosk

The following guide will show you how to create your graphical body wrap for your EZ-Kiosk. You will need to be comfortable using the graphic design program, Adobe Illustrator. You will use the template on the 3rd page of this guide to map your artwork to the appropriate panels.

**1**

Using the supplied templates, create your artwork at 100% of final size in Adobe Illustrator .eps or Adobe In Design.

**2**

Create and map your artwork for each of the four panels as shown on page 2.

**3**

Add 1/4" bleed on all sides of the panels.

**4**

The file should be set in CMYK. Save all fronts and text in OUTLINE. If importing Photoshop images, the resolution should be a minimum of 150 dpi at 100% of final size.

**5**

Save your final file as an Adobe. Pdf file save for HIGH QUALITY PRINT.

**6**

E-mail your template to: [graphics@cart-king.com](mailto:graphics@cart-king.com)

**FINISHED!**

E2 Kiosk Canopy Top - Trim Size = 71.5" Wide x 6.5" High  
File Size With Bleed = 72" Wide x 9" High

E2 Kiosk Canopy Front - Trim Size = 71.5" Wide x 37" High  
File Size With Bleed = 72" Wide x 37.5" High
